Alex Sharma

Backend Developer

Pune, India · alex.sharma@example.com · +91 98765 43210 · GitHub · LinkedIn · Portfolio

Profile

Backend developer experienced in **Java, Spring Boot, and PostgreSQL**. I build reliable APIs, improve application performance, and collaborate with frontend teams to deliver accessible products.

Experience

Software Engineer

Example Technologies · Pune, India · June 2024 – Present

- Developed REST APIs using **Java and Spring Boot** for a customer management platform.
- Reduced average API response time by **35%** through query optimization and caching.
- Implemented authentication and role-based permissions using Spring Security.
- Collaborated with designers and frontend developers to deliver three major releases.
- Documented API endpoints and wrote integration tests for critical workflows.

Projects

Document Management Platform

Java, React, PostgreSQL

- Built a platform for uploading, organizing, and searching documents.
- Added secure user access and an activity history for document changes.
- Designed a responsive interface for desktop and mobile users.
- Read the project overview.

Education

B.E. in Computer Engineering

Example Institute of Technology · Pune, India · August 2020 – May 2024

- Graduated with a CGPA of **8.6/10**.
- Completed coursework in databases, operating systems, and computer networks.
- Led a four-person team for the final-year project.

Skills

Java · Spring Boot · Spring Security · REST APIs · PostgreSQL · Redis · React · Git · Docker · Unit Testing

Certifications & Achievements

- Completed a Java backend development certification.
- Solved more than 200 data structures and algorithms exercises.
- Presented a technical workshop on building REST APIs.
